WAR FOOD ADMINISTRATION

Office of Marketing Services

Designation of Rating and Reviewing Officers

for Efficiency Ratings

1945

INTRODUCTION

This booklet has been prepared to establish a pattern to be used in determining the rating and reviewing officials for each type of position in the Office of Marketing Services. Since all branches in Washington, D. C., more or less follow the same general pattern, these have been grouped. In the field, however, each branch has its own individual set-up making any sort of grouping impracticable. The management divisions because of their similarity in organizational structure have been combined both in Washington and the field. It is obvious that exceptions to this pattern will occur, but it is believed that they will be in the minority.
